ColourFence Trade Price List 2024

ColourRail

ColourGate

ColourFence Trade Price List

Why choose Climar Industries?

Dedicated account manager.
Free brochures.
Samples available.
Full-sized displays at POS, by agreement.
Full library of digital assets to promote ranges on your website.

Features & Benefit

25 year guarantee
Maintenance free - No painting/staining ever required
Rest easy in a Storm - withstands gusts of up to 130mph
Fire Proof - 100% recyclable materials
Weather resistant - ColourFence never fades
Fully bespoke designs available - Dual-sided colour finish
Professional installation available
Made in Britain

ColourFence Panel Kit

The ColourFence panel kit comes in component form and will need assembling upon delivery.

For more information on how to install a ColourFence panel, please refer to our easy-to-install installation guide. A complete panel kit allows you to install directly into the ground.

*For start/end or change direction fence runs

A square post is required to start/end and change direction of the fence run. One square post is required per corner. Square post ball caps must be added to any ball cap panel kit that requires a change of direction fence run. ***One square post ball cap is required per square post.

For free standing fence runs

For free standing, i.e not starting from a wall or other solid objects, you will need to purchase an additional 'U' post. A ball cap finial can not be used on the post that is fixed to a wall or other solid object, if the wall extends above the height of the post.

Delivery Information

All trade deliveries will be drop-shipped either to yourself or your client's site address. **For plain fences in excess of 1.8m high, mechanical handling is required to unload the pallet at final destination, which may incur an additional charge.

Available Colours

Standard colours; Brown, Blue, Green, Cream
Premium colours; Basalt Grey

Tel: 0800 644 4117

Email: sales@colourfence.co.uk
Web: www.colourfence.co.uk
